ABOUT

I am a Java Developer with expertise in Java, C, C , HTML, CSS, JavaScript, PHP, MySQL. I have worked on diverse projects, including a calculator application C & C++, an e-commerce platform, a real-time chat application, an online tax management system, and a portfolio website. I am passionate about creating innovative, efficient, and user-friendly solutions that showcase my strong skills in both front-end and back-end development.

PROJECT

E-Commerce

📅 10/2023 12/2023   📍 Indore, India

Designed an e-commerce platform with an admin panel for managing user accounts and products, user accounts for buyers and sellers, and seamless product listing and purchase functionality.

- Delivered a fully functional e-commerce platform enabling efficient admin management, seamless product sales, and a smooth buyer experience, resulting in enhanced user satisfaction and streamlined operations.

Chat Application

📅 01/2024 02/2024   📍 Indore, India

Developed a chat application enabling real-time messaging between users, with seamless communication for both senders and receivers.

- Achieved seamless real-time communication between users, ensuring a reliable and user-friendly messaging experience.

### PORTFOLIO WEBSITE

📅 01/2025   📍 Indore, India

Created a portfolio website to showcase projects, skills, and achievements with a clean and professional design.

- Successfully showcased my skills and projects, enhancing my professional online presence and attracting potential opportunities.
